

AirDyne AD7, AD8, AD Pro: Noises from the front idler pulley

ID: 13777.1

Follow this troubleshooting guide to help resolve noise issues on the Schwinn AirDyne AD7, AD8, and AD Pro.

Some common complaints may include:

- Rubbing noises
- Squeaking or creaking noises
- Squealing noises
- Clicking or clunking noises

Follow these steps to troubleshoot the issue

Tools you may need:

Phillips head screwdriver
19mm open-ended or socket wrench

1. Locate the front idler pulley near the fan assembly (**reference 1**). If the bearings are the source of the noise, try to adjust the spindle lock nuts (**reference 1**) to resolve the noise issue [\[13777.A\]](#).

(Reference 7)

The front idler pulley is highlighted in red and located between the fan and the frame of your bike. The spindle lock nuts to adjust are highlighted in yellow.

2. If the issue persists, the part may be irreplaceable. Please contact Customer Care to [discuss options](#) to resolve the issue. Our contact information is located at the bottom of this page [\[13777.B\]](#).

Need additional assistance?

1 Customer Care Contact Information

Please contact Customer Care at 1-800-605-3369 for additional help or to order replacement parts. Some replacement parts may also be available for purchase [online here](#). A list of part numbers referenced within this guide can be located at the bottom of this page.

Customer Care - Hours of Operation:

Monday - Friday 6:00am - 5:00pm PST

The replacement part will be provided to you at no cost assuming your machine meets the warranty eligibility requirements. A Customer Care Agent will be able to assess your current warranty eligibility and provide you with your options.

Please note that if you did not purchase your machine directly from BowFlex, Schwinn, or Nautilus, we will need a copy of your purchase receipt in order to register your machine for warranty.

2 Troubleshooting WGR Hard Stops

If troubleshooting advises to discuss options to resolve the issue with the machine

The referenced part cannot be repaired/replaced. The recommended solution is a Whole Good Replacement.

Please refer to the [Whole Good Replacement Options Flow](#) for next steps.

3 Contact Tech Team / Advanced Troubleshooting

If the issue was not resolved in the steps listed, contact the Tech Team or send an Advanced Troubleshooting case.
